PROFESSIONAL SUMMARY

Software Engineer with 1+ year of experience in full-stack web development using **JavaScript, TypeScript, React.js, Next.js, Node.js, Express.js, NestJS, MongoDB, and PostgreSQL**. Proficient in developing **scalable web applications, RESTful APIs, authentication and authorization, and database integration**. Passionate about building **reliable, maintainable, and high-performance software solutions** while solving complex engineering problems.

EXPERIENCE

Full Stack Developer

Jan 2026 – Present

Invoidea Technologies

Delhi, India

- Developed and maintained **Get My Properties (GMP)**, a full-stack real estate platform using **React.js, Node.js, Express.js, and REST APIs**, supporting **Buyer, Seller, and Admin** portals with role-based access control.
- Implemented property listing and management workflows, **MSG91 OTP-based authentication**, interactive messaging, and map integration to enable secure user onboarding and location-based property discovery.
- Built advanced property search and filtering based on buying, selling, renting, location, and service categories, while integrating backend APIs and optimizing end-to-end application workflows.

MERN Stack Developer

May 2025 – Jan 2026

Neepanlok InfoTech

Delhi, India

- Developed and maintained a grocery e-commerce application using React Native and integrated REST APIs.
- Implemented product search, category browsing, promotional banners, and interactive user interfaces to enhance user experience.
- Managed application state using Redux Toolkit and Context API while optimizing performance and responsiveness.

PROJECTS

HRMS (Human Resource Management System) | *React.js, Next.js, TypeScript, JavaScript, REST APIs*

- Developed and maintained a role-based HRMS platform supporting **Super Admin, HR, Manager, and Employee** portals with dynamic access control and module-specific workflows.
- Implemented and integrated **Leave Management, PIP, Holiday, Recruitment, and Internal Mail** modules by consuming REST APIs and handling complex business logic and state transitions.
- Developed and integrated REST APIs, implemented business logic, and ensured seamless communication between frontend and backend services while resolving production issues and handling edge cases.

Airbnb Clone | *EJS, Node.js, Express.js, MongoDB, Passport.js*

- Built a **full-stack Airbnb-inspired booking platform** with property listing and reservation functionality.
- Developed and integrated **RESTful APIs** for property, booking, and user management using **Node.js** and **Express.js**.
- Implemented **role-based authentication and authorization** using **Passport.js** and designed **MongoDB** schemas for efficient data management.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML5, CSS3

Frontend: React.js, Next.js, Redux Toolkit, Context API, Tailwind CSS

Backend: Node.js, Nest.js, Express.js, REST APIs, JWT Authentication

Database: MongoDB, Mongoose, PostgreSQL

Tools & Platforms: Git, GitHub, Postman, VS Code, Vercel, Netlify

EDUCATION

Govind Ballabh Pant Institute of Engineering and Technology, Pauri Garhwal, Uttarakhand **2019 – 2023**
Bachelor of Technology (Electrical Engineering)

Apna College **2023 – 2024**
Full Stack Web Development Training (MERN Stack)
